
OUTDOOR DIRECTIONAL SECURITY LIGHTING SERVICE

I. AVAILABILITY

At all points throughout the territory served by the Company where facilities of adequate capacity and suitable phase and voltage are adjacent to the premises to be served, and service is taken according to the Service Standards and Service Regulations of the Company. Not available for temporary service.

II. APPLICATION

For service to customers contracting for directional security lighting service from flood lighting equipment supplied by Company. The service provided pursuant to this rate schedule is not for the benefit of any person, firm, legal entity, or governing body other than Customer.

The flood lighting equipment shall be mounted only on Company owned or controlled poles.

Flood lighting equipment shall be of standard designs employed by Company.

III. TYPE OF SERVICE

The lighting fixture requires 120/240 volts (with ground) single phase alternating current, 60 hertz, available to the premises to be served.

The lamps are designed to burn from dusk to dawn. Upon notice from Customer, Company shall furnish lamp renewals and install same. All necessary service and maintenance shall be furnished by Company during the regular working hours of the Company.

In case the Company shall at any time or times be prevented from delivering electric energy hereunder, it shall not be liable in damages to any person, firm, legal entity, or governing body. The service provided pursuant to this rate schedule might not be continuous and Company shall not be liable if such service is interrupted by damage to or defect of the equipment, including normal lamp burn out, or because of interruptions of or defects in electric service, even if those are caused by or are the responsibility of Company.

If Company experiences excessive lamp replacements or maintenance expenses because of vandalism or other causes beyond its control, it reserves the right to discontinue service.

2. When Customer requests a directional security lighting system that requires the installation of poles used only for the lighting service an additional monthly charge will be assessed based upon the installed cost of the additional facilities pursuant to the Additional Facilities Charge Rider, Option A.

B. Adjustments:

First – Plus or minus the applicable proportionate part of any directly allocable tax, impost or assessment imposed or reduced by any governmental authority after the effective date of this schedule, which is assessed or levied against the Company or directly affects the Company's cost of operation and which the Company is legally obligated to pay on the basis of meters, customers, or rates of, or revenue from electric power and energy or service sold, or on the volume of energy generated, transmitted, purchased for sale, or sold, or on any other basis where direct allocation is possible.

Second – Plus the fuel adjustment to be calculated based upon the total kWh included in the monthly bill times the adjustment per kWh for the current month calculated in accordance with Rate Schedule FAC. The adjustment per kWh shall be applied to the calculated kWh use per lamp.

Third – When Customer requests changing the location of existing directional security lighting facilities, Company may bill Customer for the actual cost of change.

Fourth – When Customer requests termination of service during the initial term of the Agreement, Customer shall be required to reimburse Company an amount necessary to compensate Company for all removal costs.

V. PAYMENT

The Net Monthly Bill is due and payable each month. The Gross Monthly Bill, which is the Net Monthly Bill plus 5%, becomes due after the Gross Due Date shown on the bill, which shall not be less than twenty (20) days from the date of billing.

VI. CONTRACT PERIOD

The contract shall be for a minimum period of five years and, at Company's option, may be longer to justify the investment in lighting fixtures and facilities.
