Re: Revisions to Entergy New Orleans, Inc.'s January 28, 2013 Quarterly Energy Smart Report (Resolution R-11-52; UD-08-02)

Dear Ms. Lewis:

On January 28, 2013, Entergy New Orleans, Inc. ("ENO" or the "Company") filed with your office the Energy Smart Quarterly Report for the period of October 2012 to December 2012 pursuant to the Council of the City of New Orleans ("Council") Resolution R-11-52 that requires CLEAResult to file periodic reports with the Council. However, certain data in several of the charts contained in the report were incorrectly reported. These changes do not substantially affect the overall results.

Enclosed herein, please find the revised cover letter (corrected date) and revised pages (1, 3, and 5) containing the corrected figures and for reference, highlighting the revised information. The Company respectfully requests that you file these revised data into the record.

Please accept the Company's apologies for any inconvenience this causes. Should you have any questions regarding this filing, please contact my office at (504) 670-3680.

Sincerely,

Gary E. Huntley

Re: Filing of Quarterly Energy Smart Report In Compliance with Resolution R-11-52

Dear Ms. Lewis:

On February 3, 2011, the Council of the City of New Orleans adopted Resolution R-11-52 that approved Entergy New Orleans, Inc.'s ("ENO") selection of CLEAResult as the Third Party Administrator for the Council-approved Energy Smart Programs. Council Resolution R-11-52 requires CLEAResult to file bi-monthly reports with the Council.

On behalf of CLEAResult, ENO submits the enclosed Energy Smart report for the period of October 2012 through December 2012. Should you have any questions regarding this filing, please contact my office at (504) 670-3680.

Sincerely,

A handwritten signature in cursive script that reads "Gary Huntley".

Overview

The third quarter of the Energy Smart Program Year concluded on December 31, 2012, saving 13,370,412 kWh and reaching 80.8% of its overall goal for the year. The most notable change from quarter 2 to quarter 3 was the Income Qualified Program exceeding its target goal. The Small and Large Commercial Solutions programs each saw considerable gains in their energy savings, with the Large Commercial Program exceeding its goal.

After the launch of the Algiers expansion program in October, Energy Smart began focusing attention on how to effectively let Algiers residents know they could now take part in the Program. The CFL Direct Install Program has had great success thus far having attained 15% of its goal just 3 months into this 18 month program. Marketing material (featured at the end of this report) began circulation in Algiers in early January and is being followed up with outreach to the Algiers Neighborhood Association. Door Hangers are being distributed in the 70114 and 70131 zip codes of Algiers to advertise the Energy Smart Program.

The Energy Smart Information Center Kiosk was moved from the Rosa F Keller Library to the Algiers Regional Library where it will remain until the end of February.

Program Results- New Orleans

Preliminary results of Energy Smart by program are shown below for work completed and invoiced by December 31, 2012.

December 2012 - Monthly Participation/Savings Report
(Program Year - April 2012 thru March 2013)

Program Name	Market Focus	2012 Saving Goals		YTD					% Completed YTD	
		kW	kWh	kW	kWh	CO ² reduction (lbs)	# of Participants	# of Measures	kW	kWh

The Home Performance with Energy Star (HPwES) continues to perform exceedingly well and has more than doubled its kWh savings goal over just the first 9 months of program year 2. This is due in part to the success of the Direct Install Program and completion of several multi-family projects despite delays due to Hurricane Isaac. Due to the high level of participation, the original allotment of HPwES incentive funds was depleted by late November. To capitalize on the momentum and success of the program, \$80,000 of incentive funding was shifted from the Energy Smart New Homes program to the HPwES program. Going forward, the HPwES program will be working closely with Home Energy Assessors and contractors to streamline the processes and program requirements for each aspect of the program.

A/C Tune Up Program

Month	Participating Contractors	Tune-Ups performed	kWh savings	Incentives paid	QA Inspections
April	20	128	57,264	\$8,865	-
May	23	114	50,962	\$8,123	-
June	23	32	14,658	\$2,112	17
July	23	38	21,525	\$3,148	9
August	23	20	13530	\$2,210	3
September	24	14	7,380	\$912	-
October	30	94	30,299	\$5,835	57
November	30	144	52,076	\$9,098	76
December	30	303	93,813	\$18,143	252
Total	30	887	341,507	\$58,446	414

This was the best performing period of time for the A/C tune-up program in the history of the Energy Smart program. Program savings more than doubled from 165,319 kWh at the end of September to 341,507 kWh at the end of December. This surge in activity was primarily due to performing A/C tune ups for renters in multi-family complexes. As a result, the A/C Tune Up program is on pace to surpass program year 1's results.
